

Lumen Corporate Overview

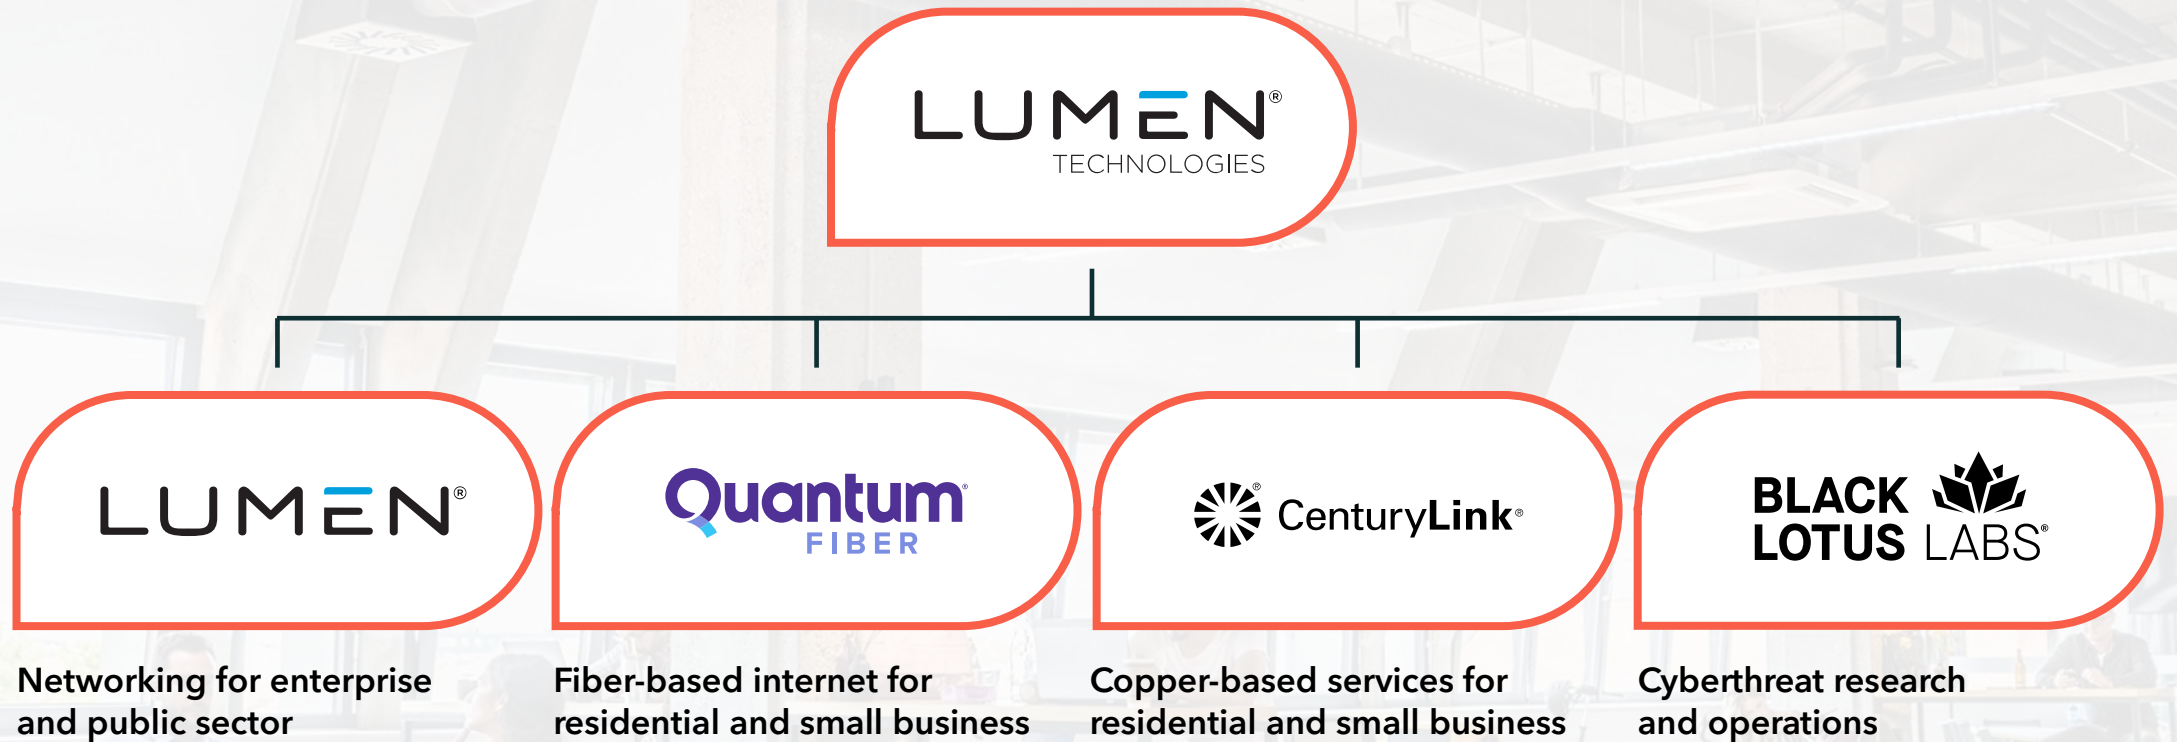

March 2025

Who is Lumen Technologies

Lumen is a networking company connecting people, data, and applications – quickly, securely, and effortlessly. We are unleashing the world's digital potential with our vast network and innovative services.

Our brands

The trusted network for AI

AI requires data. Data requires data centers.
Data centers require connectivity.

Lumen® Private Connectivity FabricSM network architecture delivers network capability for an AI-ready world.

Microsoft

LUMEN®

What Lumen does

From metro connectivity to long-haul data transport to our edge cloud, security, managed service, and digital platform capabilities, we meet our customers' networking needs today and as they build for tomorrow.

Problems we solve

Lumen's advanced technologies help our customers...

Get the connectivity they need, when and where they need it

Secure data and applications

Drive innovation and business process improvement

Have more productive and engaged employees

Secure their digital future in the AI economy

Lumen enables critical business outcomes

Driving customers' digital business forward

- Build, consume, and compete to secure their economic future
- Increase efficiency and flexibility while reducing costs
- Rapidly deploy applications and services
- Secure data, enhance operational efficiency, and address regulations
- Seamlessly communicate and collaborate

LUMEN[®]

The Lumen difference

We **own** the network. We **are** the network. We **innovate** the network.

Cloud

Dedicated on-ramps to **all** major public clouds

Scale

Built to power AI initiatives with **16.6M** intercity fiber miles expected by end of 2025 and increasing up to **47M** by end of 2028*

Speed

AI-ready speeds of up to **400 Gig**

Capacity

Digital platform capabilities to adjust network capacity **in real time**

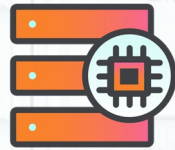

*As of Q1 2025

Lumen solutions

Networking

Best-in-class infrastructure to meet transport, data, and computing needs

Edge Cloud

Flexible and scalable solutions for connecting locations, data centers, and clouds

Security

Services to prevent, detect, and mitigate network and data security vulnerabilities

Collaboration

Transformative solutions to optimize and connect communication channels

Managed Services

Managed and professional services that enable digital transformation

The Lumen Network

One of the largest, most deeply connected networks

#1

Lumen operates the most peered network *

2,200+

third-party data center connections

~340,000

global fiber route miles

4 million

Quantum Fiber locations in 16 U.S. states

~163,000

on-net fiber buildings globally

Deep global partnerships

to serve multinational customers

350+ Tbps

global backbone capacity

Our five core priorities

How Lumen is executing and transforming

Building the backbone for the AI economy

Cloudifying telecom with Lumen Digital

Bending the curve on core network services execution

Modernizing and simplifying

Executing in Mass Markets

We see more so we stop more:

BLACK 
LOTUS LABS®

Every day Lumen's Threat Research and Operations arm, Black Lotus Labs, monitors and tracks:

2.3 million

unique threats

~46,000

C2 servers

200+ billion

netflow sessions and
DNS queries

LUMEN®

Our customers

Why customers choose Lumen

RICOH

"Lumen was committed to understanding our requirements and challenges and would enable the digital transformation we needed."

Adrian Lim, Head of IT

CustomerElation

"Working with Lumen feels like a true partnership since they understand what we're looking for. They're real people trying to do the best for their customers, just like we do for ours."

Stan Weisser, General Manager

SEATTLE SEAHAWKS

"A good fan experience starts with connectivity. Lumen assisted in helping us deliver a best-in-class Wi-Fi solution at our stadium."

Chip Suttles, VP of Technology

zoom

"The Lumen global network is one of the biggest networks in the world, and that capacity will be critical to our business as we grow."

Alex Guerrero, Manager, SaaS Operations

Lumen is recognized for innovative solutions and workplace excellence
